When called the office to say that an old crown came off, I was given an appointment later that day. After describing the crown and the tooth it was on, Dr. Fedorciw

cleaned the tooth and put the crown back on with new adhesive while explaining everything he was doing. He told me that in the unlikely event I felt any discomfort or problem with the bite to just call the office back.

I am becoming increasingly unhappy with the fact that almost everything requires another office visit. X-rays used to be standard at an annual office visit. Evidently not anymore. How long does it take to take a dental impression? The office seems to have no sense that the patient's time is also valuable.

When I made this appointment I requested to have the same hygienist who had previously cleaned my teeth. I arrived to find that this was not the case and that Dr. Fedorciw, who I assumed was my dentist, would not be doing the dental exam. The cleaning was adequate but she was scattered, clumsy and over talkative. She made inappropriate assumptions and offered unsolicited advice and comments about my medical history (unrelated to my dental care) as well as questionable assumptions about my dental condition. Toward the end of the appointment she declared that she wanted to watch the presidential inauguration. When the dentist arrived to do his exam she proceeded to hound him about being allowed to do this. When he consented that it would be ok if it was ok with her patients. She said "I don't have any more patients today" and she immediately insisted that the dentist direct her on how to use the remote control to bring it up on the computer/tv that was in the room. He did so with her blathering about being bad at technology and needing multiple prompts. This distracted and interrupted his exam. When he completed the exam she was focused on the tv and he had to say "You still have a patient here" She said that she assumed I wanted to watch the inauguration with her. I absolutely did not. I am disappointed that I had to deal with this unprofessional person. All of my previous appointments have been professional and excellent.

Review for Susan Hertel

The hygienist was very good - thorough, capable and kind. My appointment was made 6 months ago. I found out days before that the dentist was on vacation and would not see me, but if I requested, I could have another appointment for him to examine my teeth. I would have appreciated more notice and the opportunity to reschedule the appointment for a time when the dentist could see me, saving me the inconvenience of another trip.

Review for Roman Fedorciw

I have had excellent dental care from a variety of dentists throughout my 64 yrs of life. Yesterday I had an appt. with Dr. Fedorciw for the first time. His manner is genuinely friendly and caring. When he said, "I treat the person, not the teeth" I was curious about how this appt. would proceed. What I discovered was a dentist who listens effectively, and has an enormous knowledge base as well as an ability to teach and treat very efficiently. I am confident that I have found a top notch dentist.

All I can say about my dentist for the past 10 years or so is that I am in the best hands possible. I trust him and he is nothing short of kindness and caring about my health as well. I could never go to someone else he has my smile in his hands and I have a lot of experience with doctors and I will tell you this if you go to him you could not be in better hands. I love the guy and know he has my best interest in mind.

Review for Mehran Massoumi

Amy did a very nice job. She impressed me by her perceptive observation Her recognition led to a thorough evaluation of the EARLY sign of the my dental problem by the one and only Dr. Massoumi. Intuitively, Mehran applied his unrivalled talent, and saved my tooth. My sincere gratitude to the best professional team I've ever encountered. Best wishes, Mehdi

Review for Mehran Massoumi

Dr Massoumi is the consummate professional. He is a very skilled clinician with a gentle yet efficient approach to delivering dental care. My visit included the preparation and delivery of a molar full coverage crown. It was executed painlessly and with the doctor's state of the art E4D digital milling device my crown was delivered on this same appointment. It was truly a finesse procedure in which Dr Massoumi seemingly effortlessly performed this procedure which in the "old days" would have taken two or three visits. My comments are genuine and accurate since I am a retired dentist and now from a patient's prospective I am able comment accurately about the quality of care in a dental practice.

Review for Roman Fedorciw

After some hestiance finding a new dentist, ZocDoc made it easy to compare doctors in my area and book appointments online. The appointments I had this week for the exams and cleaning more than met my expectations from the reviews. Fedorciw & Massoumi LLC is well organized, in a great location with great dentists and friendly staff. My initial exam was with Dr. Fedorciw who listened to my dental history and provided detailed explanations with advice pertaining to my specific conditions which I found to be interesting and insightful. The next day I was able to have an appointment for cleaning with Dr. Christine who was also knowledgable and non-judgemental.

I love it here! I never have a problem. The staff is very professional, kind, understanding and patient. So many people I have spoken to over the years tell me that they fear the dentist. Another pleasant visit to the dentist! I can't say enough about how friendly and professional the staff is. And this is the most efficiently-run office that I visit. I never have to wait longer than a minute before I am greeted by Sue. I can actually make plans after my dental visit and be on time! I appreciate that the office respects my time. In turn, I make certain that I am always on time.

Review for Hygiene Practice F&M

There is an inconsistency in what the hygienist does after the procedure. My husband comes home with bags overflowing with products. I was humiliated by having to ask for a toothbrush. Does this stuff come out of their paychecks or something? Establish a protocol and stick to it.

My husband and I have been going to Dr. Fedorciw for 20+ years now. He and his staff are the utmost professionals and are excellent at what they do. From the front desk staff, the hygienests and both doctors, every call or visit I make to the office is a pleasant and professional experience. Thank you.

Review for Roman Fedorciw

Dr Fedorciw is a great person, as well a fantastic dentist. He always has a smile and a welcome handshake when ever we meet. I recently broke a tooth that needed a crown. There wasn't much tooth left, and I thought it would not be enough to make the crown. I was impressed how he cleverly carved a shape into the tooth. Then he scanned the information into the computer and sent to be made by the machine . I had all this done in a hour and 15 minutes. I shook his hand as I left with a permanent crown. Great experience.

Another great visit to Dr. Massoumi's office! As a dental phobic for over 30 years, it's a very welcome relief to have all of my terror of the dentist and all my fears put to rest. I have been a patient now for 3 years, and I couldn't be happier. Dr. Massoumi and his staff make me feel completely comfortable, and I've never felt one bit of pain. I used to worry for weeks before dental appointments, and now the only thing that I worry about is that I'll forget that I have an appointment scheduled. Many thanks to Dr. Massoumi, Winter, Amy, and Bobbi for making my visits so pleasant and completely painless.

I am a new patient of Dr Fedorciw and the practice. I was a patient with my previous dentist for the past 40+ years (I'm 51), so trying something new was a difficult process. From my first visit in January to my most recent, last week, I have been nothing but extremely satisfied. Service is outstanding, The staff is outstanding. The doctors are outstanding. Everyone is very professional. This practice uses some very up to date sophisticated equipment to best serve their patients. I just had a crown procedure and was amazed at the speed of the process and precision of the fit. I would highly recommend this practice to anyone.

Review for Hygiene Practice F&M

I switched to Dr. Fedorciw's practice when I moved to the area from downstate Connecticut. I used "Connecticut Magazine's" issue on best dentists in the State, and selected him as a "best dentist" whose practice is near my new home. I've been impressed from the start with Dr. Fedorciw and consider him the best dentist I've ever had. He's equally strong in his advice to prevent problems and in his treating problems. Yesterday was the first time I went to his office for a cleaning -- ususally my periodontist's office does that -- and I was very pleased with the work by Sue, the dental hygienist.

I love coming here. The environment is great and the staff treats you like family. Dr. Massoumi is amazing. He and Winter, the dentil assistant, are a great team and make things like getting cavities filled as painless and pleasant as possible. My hygienist Bobbi is upbeat and quick, it's always a treat getting my teeth cleaned.

Review for Hygiene Practice F&M

We have been coming to this practice for over 30 years. When we moved to the shoreline back in 1984, we could have easier found a new dentist a lot closer to home, but, we didn't. I have always been content with all my dental procedures. In fact, I now have a whiter and more beautiful smile. Also, the practice must be treating their employees just as well as their patients, for they wouldn't have stayed for so many years either. From Kelly to Sue to Bobbi, they've watched my children grow from babies to grown adults. I am not looking forward to my upcoming root canal in a couple weeks, but, I can easily take comfort in knowing it will taken care of with a positive outcome. You all get my highest rating. P.S: Requesting more Colgate samples. Not a Crest fan. Heheheeee

There were no dentists in the office for my 6-month check-up, made 6 months ago. The hygienist found an area of concern requiring me to make a follow-up appointment so that a dentist could check it. He should have been there in the first place or rescheduled my appointment. Also, the hygienists are inconsistent distributing sample-sized floss, toothbrushes and toothpaste. Mine made me ashamed to take a new toothbrush.

My visit to your office was fine, but me having to go to Dr.Geilbs office to have my teeth cleaned by his hygienist that I do not know seems like your helping a colleague out instead of me going to see him right after you clean my teeth so he can check out his own work and see how I am doing. I said I

would go to him one time only. And thank you to both You and Bobbie for getting the glue build up out from between the crown and back molar, it is much better. RZ

I felt comfortable immediately upon entering the office. The staff is professional, friendly, attentive and thoughtful. Great qualities for a dental office. The equipment they use is 21st century, I didn't mind having xray's taken. I have already recommended the practice to others. My previous dentist died last year and I had to find another one after 25 years with another great dentist. I am fortunate to have found, thanks DB for the recommendation.

Review for Roman Fedorciw

Follow-up call from the dentist himself to check on patient's progress after placing a temporary crown. Dr. Fedorciw asked thorough, specific questions about my anaesthesia recovery, bite, and comfort. He also made sure I knew what symptoms to report if I encountered them and made sure I felt comfortable to call the office. I'm really, really impressed. During the procedure he also gave very detailed explanation of the process and rationale, let me look at the computer image of my tooth and the crown: it

was really cool. He checked in often on my comfort during the procedure, too. I felt NO pain. Very thorough numbing job was done. All of the staff in this office really make sure that patient's needs and concern are heard and addressed. Exemplary.

This dental firm is extremely accommodating when need arises. And Dr Fedorciw actually called me in the late evening to see how I was feeling. He knew I was tense and wanted to make sure I was doing alright. This kind of service is unheard of in this day and age. Bravo for their kindness as well as great dental work.

Review for Roman Fedorciw

(1) Front desk staff courteous, efficient and helpful. (2) Awesome first-visit interview for new patient. These doctors want to know you as a person, not just a mouth with (or without) teeth. The goal is two-way communication, rapport, and teamwork for the best care. As a healthcare professional myself, I was really, really impressed. (3) Comprehensive and comprehensible explanations of dental conditions, why and how they develop, and strategies to prevent and treat. For example, I got a clear account of the pros and cons of flossing vs water pic. (4) Doctor and hygienist staff walk you through the assessments they are doing. Very careful touch on the mouth, too. It makes a difference. (5) They have the technology. You can call this an investment in the practice, but it's also an investment in patients' oral health. (6) Giving back to underserved / uninsured. (7) Check out their office hours. They make time for patients who can't get off work to receive care. (8) Doctor walked me out to front desk to personally give instructions for follow-up appointment. Just to be clear, I

have been fortunate enough to encounter excellent providers and excellent care wherever I have been so far in my life. That said, this office still stands out. They are exceptional.

I thought that my hygienist was fabulous. She was able to explain things and put me at ease about a concern I had. I was considering teeth whitening but I felt that everyone was rushed and wasn't able to explain it all to me. I am not sure that I want to have that done now. I am a medical provider and realize we are all busy but I didn't want to wait to hear about the teeth whitening on the day I came in to start the process. I needed to know a little more before making the decision to invest my time and money on the procedure.

Review for Hygiene Practice F&M

It is always pleasant to come to your office for dental care. The front desk women are always smiling and friendly and they know your name. The hygienist attends to business, is friendly and makes one feel comfortable, and the dentist and his assistant are comforting and congenial and the care is excellent. Questions are answered promptly and thoroughly, with no sense of rushing on to the next patient. I'm perfectly happy with my choice of dentist and care group.

Review for Mehran Massoumi

I have been a patient of Dr. Massoumi's since he became a partner of Dr. Fedorciw's. In my opinion he is the most kind, gentle and patient soul. He knows I dislike coming to the Dentist and that I have a fear of the whole ordeal, yet he always seems to calm and reassure me (especially with his

funny little jokes). One cannot ask for a better Dentist. Like I always tell him...."Dr. Massoumi, your the BEST!"

Review for Roman Fedorciw

I suppose that having dental work of any kind is not anyone's favorite pastime. Getting a crown is likely just above root canal in the lower echelons of that already onerous family of procedures. That said, the first phase of my crown experience was quite pain free, efficiently performed by Dr. Fedorciw, and otherwise as pleasant as can be expected. The staff is courteous and fun.

Bobby was off the day of my appt. So you had "Kinga" do my cleaning. In my opinin she is an excellent Hygenist, was gentle and thorough in the way she did the cleaning and is very knowlegable, cause I asked alot of questions and she answered every one of them without asking someone else for the answer. She is top notch. When Bobby retires I'll have no problem having her be my Hygenist. Thanks. Ken Fillmore

Review for Mehran Massoumi

I was very impressed with Dr. Massoumi and his staff. He was very patient, thorough, asked pertinent questions, inquired about my needs/expectations, explained all procedures/x-rays and did a very comprehensive exam. I will continue to be his patient and look forward to future visits and coordination with other dental specialists. Very clean office and new, state of the art equipment. Courteous, polite, professional and efficient office staff. This is a "first rate" practice and I have already recommended him to several friends and relatives.

Came in for a cleaning. The hygienist was marvelous and very reassuring for a dental-phobic like me. I especially liked the value-added she provided by offering to put some numbing substance on my gums. I don't have particularly sensitive teeth but this helped a great deal nevertheless.

Doctors are always on time and as much as I do not like going to the dentist both Drs. Fedorciw and Massoumi make my visit a painless one. Very thorough and conservative. I had some issues and I have been quickly referred to a specialist and I am confident that their referral will be as professional and knowledgeable in their field as Dr. Fedorciw and Massoumi. All staff very pleasant and equally professional. My son loves to go here and actually looks forward to visiting the dentist. Important to have such good experiences at a young age unlike dad. Hard to forget the bad experiences so glad to be in good hands today.

I have been a patient since 2005 and am extremely happy with the care I receive. In addition to regular/routine dental care, I have also had cosmetic work as well, which is what first brought me to see Dr. Fedorciw, and which is why I remain a patient. I trust

that I am getting the best care. All my options are explained so that I can make an informed decision. The staff is wonderful and they have the most efficiently-run medical office, demonstrated by how well appointments are scheduled. They are respectful of your time - you are never in the waiting room long.

This office uses state-of-the-art-equipment, and is always on the leading edge of technology. The environment is very soothing, comfortable, and pleasing to the senses. Both Dr. Fedorciw and his partner have excellent hands and are the absolute best in their field. I have been to many dentists, and can say that I trust my mouth to no one but this team. If I move out of state, I will travel to continue service here. Unquestionably, they are the best!

I started as a new patient with Dr. Massoumi a few months ago. I just completed, what could have been a horrible experience for a procedure, but ended up being quite manageable. He always made me feel at ease. I am someone that if you just mention the word dentist my anxiety levels and blood pressure shoot up. Dr. Massoumi made the experience "painless". I highly recommend him! Also their office is beautiful, spacious, and the people who work there are just wonderful!

I was probably one of Dr. Fedorciw first clients twenty something years ago. I relocated to Maryland close to three years ago and have been travelling to Connecticut every six months for cleaning, check ups, xrays, crowns, etc. Dr.

Fedorciw and his staff are very professional and understanding. Fedorciw and Massoumi, LLC are State of the Art Dentistry. I would like to recognize Kelly, as she always finds a way to accommodate me, at the last minute. I have recommended Dr. Fedorciw to a number of my family members and friends. I certainly rate Fedorciw and Massoumi, LLC and staff a HIGH EXCELLENT. Thank you Dr. Fedorciw for always being there for me. Fondly, Lorraine T. Fiducia

I used to hate going to the dentist! I'm still not a big fan of having to go, but I wouldn't think of going anywhere else. Walking in to see the SmileDrs...is a very comfortable experience. They are always personable, respect my time by being ready when I arrive and thin the office is smiling, there's laughter in the office air and while they are thorough and professional it never seems like a 'routine office visit'. If you're nervous about the dentist, haven't been to one in a while or are looking for non-judgemental professionals who actually care...I highly recommend and trust these guys...in fact, so do several members of my family. - Bob Holdsworth

Hi not sure what happened but I had to inform the hygenist why I was there. She forgot to clean my front bottom teeth. She seemed distracted, my issue is I come there and it cost me more because the practice is not on my plan so my out of pocket is higher. I expect the same care from each visit. This is not the first time but it is the worst time. I never said anything because I did not want to be offensive. I came back to the practice because of the quality of the care.

I particularly like his take charge approach as the professional and his emphasis on explaining the options, proposing a plan, and explaining each step in the process. Also, the fact that I didn't feel the novocaine injections is a big plus. The only negative aspect is that the office has free tubes of Crest toothpaste available to patients. Crest is tested on animals and is manufactured by Procter & Gamble which is detested by people like me who know how testing on animals is brutally abusive.

I am 57 years old and have had some pretty negative experiences with different dentists. Life in the dentist chair the past several years, however, has truly been at least 1000 times better. I cannot tell you how blessed I feel to have found this dentist office. Dr. Massoumi is my dentist and he is incredibly smart, talented,

compassionate, honest, personable, professional, and so much more. He explains what he's going to do before he does it. No surprises at any time - even during a simple filling. He talks you through it all. He let's you know different sensations you may encounter while he's working on your teeth. If a part of your mouth is going to feel numb, he lets you know before it happens, so I'm never worrying if what I'm feeling is normal or not. He checks to see that you are not experiencing discomfort. All of this really helps eliminate the stress of any dental work. Every assistant in the exam room and office is also friendly, professional, extremely knowledgeable and great at what they do. The office and exam rooms are immaculate and the equipment is state of the art. I was only seen by Dr. Fedorciw one time and behaviorally he was like a twin to Dr. Massoumi. The hardest part of going to this office is learning how to say Dr. Fedorciw's name. I'd recommend this office to anyone who is looking for two dentists and group of people who are top notch.

As always, short wait time (hey, I didn't get to read that article in TIME), friendly, professional visit. Sue always does a great job and is cognizant of my concerns and needs.

Susan did an outstanding job as always. As much as going to a dental office is not high on my list, she and the Drs. always make me feel at home and welcome. They are always on time and I am rarely disappointed in the services provided.

I wouldn't go anywhere else for my dental health. A few years ago our insurance changed and forced us to use another Dentist. After three visits with the new dentist, and leaving the chair in tears everytime, I knew it was time to go back to Dr. Massoumi. He effortlessly fixed the mistakes the other dentist made and set me back on the path of dental health. His work is of the highest quality and durability. I have found his chair side manor to be compassionate, caring and genuine. I have received many years of great care and will always be a customer.

Dr Massoumi and the staff at Fedorciw & Massoumi are wonderful. I have always been extremely anxious about going to the dentist. Dr Massoumi is patient and kind. He is very thorough and willing to answer questions and explain procedures.

What a great experience... I walked in with a terrible toothache and in just 90 min I had a root canal + few Advil and the pain was gone. I always dreaded root canal, but not anymore. The entire experience was great, clear communication on what's going to happen, comfortable dental chair, I almost didn't feel the dental anesthesia which was the most painful part of the entire process... What a great experience
